

Village Show- Parish Council Stall

We have worked on this paper in conjunction with the Bragenham Side Field paper. As recommended on Bragenham Side phase 2, the focus for the foreseeable future should be on Community Consultation.

We are therefore recommending that prior to formal consultation as developed and proposed by an expert project subgroup, we should look at increasing where possible all forms of parishioner engagement.

The Stoke Hammond Village Show is an excellent starting point for meeting and engaging with significant numbers of our parishioners at one event.

We are therefore suggesting the following as the purpose of this event as well as the proposed methodology:

Purpose

1. Introduce the Parish Council and what we do
2. Provide feedback on any area of interest to parishioners
3. Outline proposals for future activity
4. Start Community Census – providing the opportunity for people to share contact information and detail of any support they can provide

The Parish Council is invited to consider the following recommendations:

1. A stall be acquired at the Village Show on the 7th August and the payment of £15 agreed
2. The purpose and Methodology outlined above is agreed
3. A Budget of £150 is made available to source materials for the show and subsequent events of a similar nature

Cllr Malcolm Newing
