MALCOLM NEWING

The past year left me wanting to make a contribution again locally. Consequently, I joined the Parish Council in November having lived for 24 years in Stoke Hammond. I chaired the successful Stop Dorcas Lane Turbine Action Group which brought together residents across the North Bucks Villages in opposition to this unwanted development. The same approach would be beneficial in the face of threats like housing over-provision, road quality and traffic speed through the villages. I have joined the 'No to Bletchley landfill ' Group to share my experience. I managed major issues and large budgets as a Customer Service Director in BT; skill sets that will help me make a positive contribution to villagers' lives. I passionately believe that listening, caring, and working together will deliver a better, stronger kinder community that benefits everyone.
